

TV Removal - Your Best Solution...

The best place for a TV is in the bin, however if you have been watching one for a few years, especially as a family then you are going to find it very difficult to get rid of this weapon that has been disguised as your best friend in your home for so long.

It is quite possible to do this yourself for free but you will most likely go cold turkey and drift back to the comforting glow of your telly or replace it with a new one if you managed to get rid of it.

ILR Now can help you through this crucial period by removing your TV and providing you with an entertainment plan as well as getting you back into society with live local events that match your interests.

Once you have decided on a plan which can be found at our web site www.ilrnow.co.uk we will remove and store your TV for one month (in case you change your mind) then destroy it when you don't. There is also a cheaper option from your start date that you destroy and video the event for addition to our YouTube channel.

From the day of TV removal or you destroying them we will have an entertainment plan designed especially for you already in place (+ other family members dependant on plan). You will also have access for 1 year subscription inc to our Social Truth network which works like FaceBook but without the spying. Set up groups find friends share things of interest. We also have lots of music playlists and many other features available to subscribers.

As well as this we will be working hard to introduce you to events of interest or meet ups with others locally in your area that fit in with your stated interests. We will provide at least 4 invites/suggestions within the first month.

With so much to do we are sure you will not miss your old friend the TV and you will be well on the way to full recovery within a month. In fact you will wonder how you ever found the time to watch it let alone ever wanting the box of lies back!
